SPONSORING THE ANNUAL FOURTH OF JULY CELEBRATION AT REDWOOD CITY CALIFORNIA

First Time Float Builder Grant

Peninsula Celebration Association will make a grant of \$200.00 to a group or individual building a float for the first time. The purpose of this grant is to allow groups to have a secure base budget and enhance the quality of the floats in our parade.

The qualifications are:

- You must attend a float clinic.
- you must be entered in one of these categories:
- local amateur
- amateur other communities
- your float must complete the parade route and
- it must score a 65% or more of possible points (eligible for a prize)

The float does not have to be in competition. All floats are judged as a courtesy.

The grant will be mailed after July 4 as a separate check in addition to any prize money that you win.

The definition of first-time is any group or individual who has never worked on a float or a group that has entered a float previously but none of the original float builders are working on the current entry.

Group Name: _____

Designer and Principal Float Builders (name all that apply):
